

Dear Mr. Nazim Baksh :-

10. May. 2008

A# 1- I just want to be as normal as any normal unknown Canadian.

A# 2 My most joyful memories of my life were in Canada like school and going to the Zoo and seeing the Auto show which until my last day i had car posters and Magazines.

A# 3 First thing i tell them is not to fear me. I'm a Peaceful person and to give me a chance in life and dont believe what you've heard and believe what you see with your eyes.

A# 4 In a normal person there is a connection between him and the place wher he was born even if he didnt always live in the Country, but he will alway want to return to it, and feels his soul Connected to it, and thats how i feel.

A# 5 I always feel im in this world to help people and the best way to do that is to be a Doctor to help any body any where and any time, and thats my future dream.

A# 6 First i never had a choice in my past life, but i will build my future with the wright bricks, and that Islam is a peaceful, multi cultural, and anti racism religion for all.

Omar. A. Isheer
