Subject: Information on Oceanus and Bridgewater - they approached us last week and this week reviewed our materials -

As most of you may have heard, we had a rather earth moving experience last night at dinner with Rahim Jaffer and Dr. Chen. Mr. Jaffer has opened up the Prime Ministers' office to us and as a result of that dinner – he today advised me that he is just as excited as we are and joining our team seems to be the next logical step. Dr. Chen also was thoroughly impressed with the level of commitment from Rahim and the strength with which it was made. Something has happened today that has furthered his level of confidence in what Rahim can do for the China initiative we are involved with as well as the Green rite project – both in the short and long term.

I think this week has been an interesting one – to say the least. Most of you also know that [REDACTED] has come back to everyone with his tail between his legs and I suspect feels “ill” about what has happened and the level of disgust we all feel when this sort of betrayal takes place. Regardless, we are going to table a new contract with him on Monday which will in no uncertain terms reflect my distrust as well as my disgust in this matter – and if we proceed with him and [REDACTED]; it will be under a completely different set of rules.

I look forward to speaking with all of you next week and I will be working all weekend – except for my 4 hour initial meeting tomorrow – of my woman's parents. Wish me luck. Have a great weekend and thanks to all of you for your continued support of ISI and myself. It is truly appreciated and I really believe that 2010 is going to be the best year of my professional life and subsequently – YOURS. LOL.

Naz
