Statement Begins / Debut de la declaration

Time/Date/Location: Dec 12, 2006 / [redacted]

I stopped along [redacted] and held up a vehicle that was proceeding south down the road. I stopped and searched the three individuals in the vehicle and got a very good feel from one of them that he kept some, and he worked at [redacted] and was an all probability Enemy (Taliban) like to his accent and his behavior, he being from Kandahar city. So I had him lie down on his stomach then conducted a detailed search (I had him empty his pockets prior to this) catalogued all his things then took down his particulars (name [redacted] from [redacted]) and then photographed the individual just to have a visual record, to ensure that if the AUP did assault him, as has happened in the past, we would have a visual record of his condition. The AUP Section (and [redacted]) then arrived, asked the suspect a couple of questions and returned with our assessment that the individual was enemy. We in good faith handed the PUC over to them so that he could be transported to the Zhari District Center ([redacted]) where [redacted] could get him. That was the last I saw him.

[redacted] is one of [redacted] near [redacted]
