1.0 Description of the Community Water Supply

There is no information in the CAIS report. The Technical Services Advisor informed OCWA that there is no communal water service. Water is taken from individual wells or surface water and is pumped directly to individual houses.

2.0 Description of the Community Sewage Facilities

There is no information in the CAIS report. The Technical Services Advisor informed OCWA that the community does not have any communal sewage services. The sewage facilities are individual or non-existing.

Reason for No Visit

The Koochiching First Nations community was identified as having no communal water and sewage services and, therefore, a visit was not required. OCWA telephoned the Tribal Council Advisor on June 4, 2001 to confirm the individual water and sewage treatment systems in the community.
